MEMORANDUM FOR: Warning Working Group

FROM :
National Intelligence Officer for Warning

SUBJECT : Minutes

1. The Warning Working Group (WWG) met on 23 July 1982 at CIA Headquarters. In attendance were:

2. The purpose of the meeting was to review a draft DCID implementing the DCI's decisions in warning and to discuss the INR proposal to disseminate the NIO monthly warning reports to the field.

3. Both the draft DCID and an INR version were discussed. Most concerns were clarified in the meeting, or it was agreed that the topic should be given broad guidance in the DCID with more specific procedures covered in NFIB memos, as required. The chairman will provide a revised draft for the next meeting which will address the remaining concerns of the members.

4. The INR representative provided the background and purpose for disseminating the NIO monthly warning reports to field locations. The CIA/DDO representative and the A/NIO/W provided a status report on the selected distribution presently being made via CIA channels. There was general agreement

that this would serve a useful purpose. INR was asked to provide more details on the rationale and need for such distribution, and DIA was asked to look into the feasibility of disseminating highlights from the monthly warning reports to the members of the DOD I&W system. The Chairman will pursue the use of CIA channels for further field dissemination with the DDO.
